## Education

### Menoufia University

B.Sc., Computer Science – Faculty of Computers and Information (GPA: 3.02/4.0)

Menoufia, Egypt

Expected June 2028

- **Relevant Coursework:** Data Structures & Algorithms (C++), Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Computer Networks – demonstrating strong problem-solving and software engineering fundamentals

## Experience

### Digital Egypt Pioneers Initiative (DEPI)

Jan 2025 – Present

Frontend Web Development Trainee (React)

Hybrid

- Developed 10+ responsive web apps using React.js and TypeScript, reducing layout bugs by 40%
- Integrated 5+ RESTful APIs and optimized data fetching, cutting load time and improving responsiveness
- Collaborated in a cross-functional team via Git/GitHub, showing adaptability, accountability, and communication
- Built full-stack features with Node.js and Express, applying critical thinking and ownership independently
- Practiced agile workflows and code reviews, strengthening problem-solving and continuous learning habits

## Projects

### RoomiFY | AI Visualization SaaS, React.js, TypeScript, Vite, TailwindCSS, Puter.js

[GitHub](#) | [Demo](#)

- Engineered an AI SaaS platform transforming floor plans into photorealistic 3D renders using Claude & Gemini APIs
- Architected a serverless backend on Puter Workers with KV storage and CDN hosting, ensuring 100% media uptime
- Delivered 5+ features including project gallery, community feed, side-by-side comparison, and privacy controls
- Designed a modular React/TypeScript frontend with reusable components, improving maintainability and scalability

### MacOS Portfolio | React.js, Zustand, GSAP, Tailwind CSS

[GitHub](#) | [Demo](#)

- Built a macOS desktop simulation with an interactive dock, draggable windows, and multi-app navigation
- Managed window stacking and global state with Zustand, and handled drag-and-drop and animations via GSAP
- Implemented system-wide dark mode with smooth wallpaper transitions using Tailwind CSS dark modifiers

### The Wild Oasis | React.js, Supabase, TanStack Query, Styled Components

[GitHub](#) | [Demo](#)

- Built a full-stack hotel dashboard with 6+ core modules including bookings, cabins, check-ins, and analytics
- Implemented secure authentication with protected routes and optimized server state via TanStack Query caching
- Visualized KPIs using Recharts with 2 chart types, and applied Compound Component Pattern across 4+ UI components

## Technical Skills

**Languages:** JavaScript, TypeScript, HTML, CSS, Python, Java, C++

**Frameworks & Libraries:** React.js, Redux Toolkit, React Router, Bootstrap, Tailwind CSS

**Developer Tools:** Git, GitHub, Vite, npm, VS Code, Chrome DevTools, Docker

## Certifications

**Programs:** Frontend Development Track (DEPI)

Ongoing (2025–Present)

**Web Fundamentals:** HTML & CSS Fundamentals – MaharaTech (ITI MOOC)

Oct 2025

**Version Control:** Git & GitHub (Intro & Intermediate) – DataCamp

Jun 2025

**Foundations:** Software Development Fundamentals (9 Courses) – Programming Advices

Jan 2024
